HOW TO LOG INTO

TALLORDER NOW

How to log into TallOrder Now

This is how to log into the TallOrder Now application.

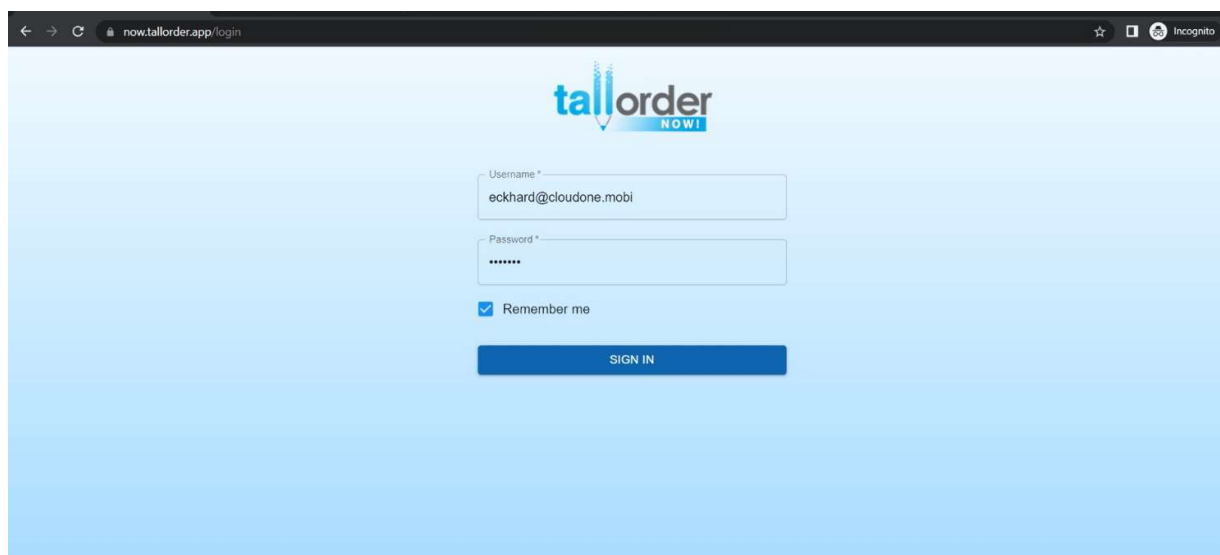

First thing that you're going to do is log into the now.tallorder.app screen. Then type the link into your web browser URL which is tallordernow.app/login. You will then be navigated to the TallOrder Now page.

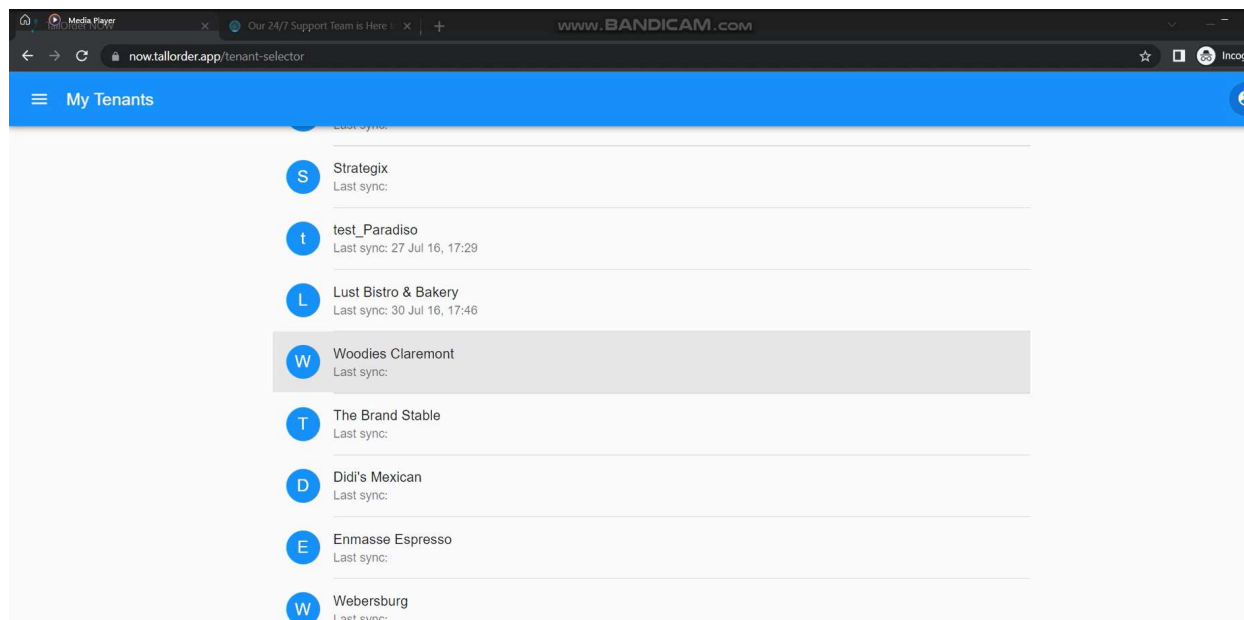

You can call us at any point in time to get this information.

You will then type in your username that would have been provided to you via our support team, your installation officer and then your password.

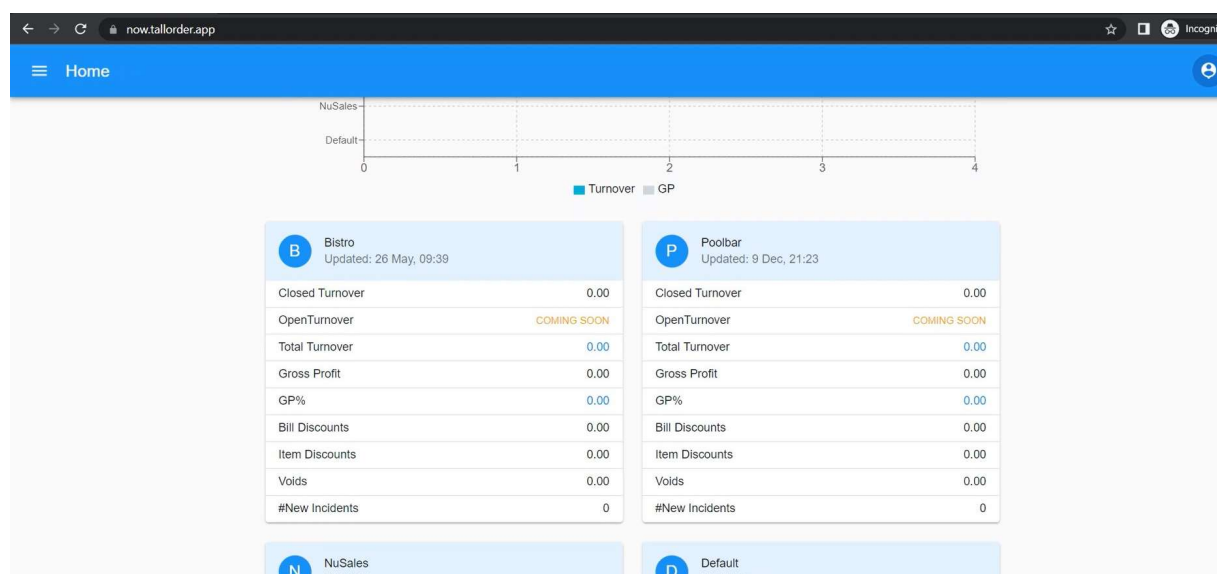

Once you have entered in your information you can just click the remember me button and then click on the sign in button.

Next is you'll see a list of all your available tenants that are linked to you, these are all the businesses that are directly linked to your account.

In this case we're going to open up one of these tenants, which will display a day-by-day sales report, showing exactly what has been happening in your business over the last couple of days. Then if you want to go back, go to on the left menu panel and select your turnover screen, or go to sales to see the list of all your sales.

Should you need any further support on this, you can navigate to our support page where it will be www.tallorderpos.com/support. You can give us a call on a 24-7 basis or simply log a support ticket and our team will get back to you as soon as possible.
