

## A3 ToGo

### Clip Frame Guidelines

All Templates are created in Microsoft PowerPoint and the guidelines below are there to help you configure your very own branded marketing materials.

#### Logo Replacement

- Navigate to Selection Pane – [Click here](#) for more details.
- Select the “**Logo**” layer.
- Within the Slide View Area right click on the selected “**Logo**” layer, and click “**Change Picture**”.
- Locate replacement logo and click “**Insert**”.

**Note:** Logo needs to be High Resolution, have a transparent background and be visible on the preferred background image.

#### Logo Container Color Change

- Within the Selection Pane click the “**Logo Container**” layer.
- With the “**Logo Container**” layer selected go to the “**Shape Format**” tab within the main header area and click on “**Shape Fill**” drop down button to change the color of this container.

#### Online Ordering Link Change

- Within the Selection Pane click the “**Online Ordering Link**” layer.
- Double click on the selected layer within the Slide View area to edit the text.
- Replace link with your own unique “**Online Ordering Link URL**”.

**Note:** You can set this text to any desired color you like, that is not too obtrusive against the background image.

#### EDITABLE AREAS

#### Background Image

**ORDER AHEAD! ➡**

Don't interrupt your busy work day by waiting inline, or having to walk to the cafe. Order online for hassle free service!
