

A5 ToGo

Tent Card Guidelines

All Templates are created in Microsoft PowerPoint and the guidelines below are there to help you configure your very own branded marketing materials.

Logo Replacement

- Navigate to Selection Pane – [Click here](#) for more details.
- Select the “**Logo**” layer.
- Within the Slide View Area right click on the selected “**Logo**” layer, and click “**Change Picture**”.
- Locate replacement logo and click “**Insert**”.

Note: Logo needs to be High Resolution, have a transparent background and be visible on the preferred background image.

Online Ordering Link Change

- Within the Selection Pane click the “**Online Ordering Link**” layer.
- Double click on the selected layer within the Slide View area to edit the text.
- Replace link with your own unique “**Online Ordering Link URL**”.

Note: You can set this text to any desired color you like, that is not too obtrusive against the background image.

QR Code Replacement

- Within the Selection Pane click the “**QR Code**” layer.
- Within the Slide View Area right click on the selected “**QR Code**” layer, and click “**Change Picture**”.
- Replace the QR Code with your own unique QR Code.

Note: You can easily generate your own QR Code by going to [this site](#) and adding in your unique Online Ordering Link.
