# myStock 4 Accounting

Advanced inventory control that scales with your business and syncs seamlessly with **Sage & Xero**.

## Cloud Accounting + Inventory Headaches?

We understand that switching from Desktop Accounting software to **Sage** or **Xero Cloud** brings exciting benefits — **but it can also raise concerns about inventory management**. While cloud accounting solutions excel at financials, they may not offer the advanced stock control that desktop versions provided.

### The Solution...

### myStock 4 Accounting + Integrations!

**MyStock 4 Accounting** takes the chaos out of managing stock, sales, and finances. We bring **enterprise-grade** inventory management directly into your existing cloud accounting ecosystem, **ensuring your business runs smoothly across multiple locations**.

**YES, I Need...**

#### Better Multi-Location Control!

Maintain smooth, organised stock movements — **covering purchases, production, transfers, and requisitions** — with a fully managed and approved workflow.

**YES, I Need...**

#### Produce Items More Efficiently!

Manage on-demand and batch production with clear, easy-to-use bills of materials or recipes — **reduce errors, save time, and eliminate costly production mistakes!**

**YES, I Need...**

#### Faster, More Accurate Stock Counts!

**Ditch the manual stock sheets** — our mobile stock count tools make inventory checks quick, easy, and precise.

**YES, I Need to...**

#### Optimise My Stockholding!

Real-time inventory insights help you avoid overstocking or running out of crucial items, boosting sales and cash flow.

# A Fully-Integrated Ecosystem

**myStock 4 Accounting** works hand-in-hand with **TallOrder POS** to create an end-to-end business platform. From point-of-sale to profit reports, every part of your business is **connected, automated and simplified.**

## Point of Sale

## Inventory Management

## Online E-Commerce

## Accounting Integration

# Your All-in-One Operational Powerhouse

## iCount – Inventory Made Easy

With **iCount**, start stock takes instantly via WhatsApp, QR code, or email — **no app needed**. Staff can count from any device, while approvers review remotely for fast, accurate inventory control.

## E-Commerce Integration

Seamlessly connect to **Shopify, Commerce7, or WooCommerce**, to manage stock across both online and in-store sales, all from one streamlined platform — **built to keep your books balanced and your business moving.**

## Accounting Integration

With powerful two-way integrations to **Sage, Sage Intacct, and Xero**, you can sync every sale, return, and supplier invoice directly to your accounting system and pull key financial data back, including invoices and credit notes — **to ensure your inventory always reflects the latest activity.**

**Push your business to the cutting edge** with our all-in-one solution:

- ✓ Easy Inventory Management
- ✓ E-Commerce Integration
- ✓ Seamless Accounting

## Feature Highlights

**Smooth Migration & Integration**

**Customisable Dashboards**

**Automate Invoicing & Purchase Management**

**Easy Setup, Use & Full Support**

## Smarter Stock, **Simpler Accounting**

Our integrations eliminate manual data entry, improve accuracy, and streamline workflows for greater efficiency and insight.

## Key Features

### **Better Multi-Location Control**

Easily manage stock across sites with structured workflows — **from requisitions and transfers to purchases and production** — under controlled approvals.

### **Standalone or POS-Integration**

Use **MyStock 4 Accounting** independently or integrate it with **TallOrder POS** — **perfect for businesses that sell online (WooCommerce / Shopify) and in-store.**

### **Automated Stock Reconciliation**

Replace manual counts with automated reconciliation, instantly aligning system and physical inventory for accurate control.

### **Integration with Xero & Sage**

Sync stock with your accounting platform to automate reconciliations, cost-of-sales, and eliminate manual entry errors.

### **More Accurate Stock Counts**

Gain real-time inventory visibility to prevent overstocking or shortages. Improve sales, cash flow, and avoid stock-related delays.

### **Advanced Reporting**

Get real-time insights from sales, stock, and supplier data for accurate forecasting and smarter decisions.

# Integration & Affordability

With **myStock 4 Accounting**, SMEs gain access to powerful, real-time inventory control — **without the ERP price tag**. Take control of your operations with smart inventory management, powerful integrations, and **pricing designed to grow with your business**.
