

Sync Your Online Stores & Sales TallOrder + Commerce7

One System for Tasting Room, Online Sales, Stock & Accounting. Whether you're selling from the tasting room, online shop, or via wine club subscriptions, **TallOrder POS** integrates with **Commerce7** to keep your sales, stock, and accounting systems fully connected. Using **MyStock 4 Accounting**, your inventory, supplier invoices, and financial records are synced across platforms in real-time — from cellar door to cloud.

No duplication. No recon delays. **Just one central system powering your wine business.**

Complete Inventory Control

With MyStock 4 Accounting, your inventory stays synced whether sales happen in your tasting room or online. Track bottle-level movements, automate GRNs, and keep stock data aligned with your financials.

Effortless Financial Management

Eliminate end-of-month admin. TallOrder and MyStock 4 Accounting post your sales, VAT, and supplier data to your accounting platform — *giving you up-to-date numbers and full traceability.*

Source	Data Synced	Destination
Commerce7	Online orders, products, customer info	myStock 4 Accounting
myStock 4 Accounting	Sales summaries, VAT, COGS	Xero/Sage
myStock 4 Accounting	Supplier Invoices, GRNs, returns	Xero/Sage

- Real-time syncing of online orders
- Daily financial posting to Xero/Sage
- Unified stock across channels

Why Integrate Commerce7 with TallOrder?

Centralised eCommerce + myStock

Track DTC & in-person sales in one system.

Unified Stock Management

Inventory is always in sync across platforms.

Automated Accounting Sync

Push sales and supplier data to Xero or Sage.

One Customer Profile

See sales history from both the tasting room & online.

Wine Industry Ready

Built for wine clubs, tasting rooms & DTC retailers.
